TECH TRECK (Project Idea Competition)

TECH TRECK was a project idea competition conducted as part of La Guerre 2.0, in collaboration with the IEEE IA/IE/PELS Joint Chapter Kerala. The event focused on socially relevant topics and received innovative entries from participants across multiple institutions. TECH TRECK had several compelling ideas, making it a challenge to determine the winners. The winners were Sayooj Rajan from Vimal Jyothi Engineering College Chemperi, who secured first place, and Harikesh O P from Government College of Engineering Kannur, who won the second prize. The event concluded successfully with certificates awarded to all winners.

No. of participants: 10

Date: 10/10/24

Workshop On 'AUTOCAD'

Students from the Civil Engineering stream learned the fundamentals of AutoCAD software, which is essential for design and drafting in engineering projects, as part of the camp *REVIENS 4.0*, organized by IEEE SBCETkr. These workshops were highly interactive and well-received, providing valuable skills and technical knowledge to the participants. After a lunch break at 12:30 PM, the afternoon session resumed at 2:00 PM and concluded at 4:00 PM.

No. of participants: 40

Date: 02/11/24

Venue: Civil Department Lab
